NOTICE PLAN

Overview

6. The proposed Notice Plan utilizes individual notice to all identifiable Settlement Class Members. It is my understanding the Settlement Class consists of

approximately 111,663 Settlement Class Members, all of which can be provided with direct notice.

Class Definition

7. The Notice Plan is designed to provide notice to the following Settlement Class: all persons who provided their personal data to Fulton Bank, N.A. and were notified that their personal data may have been impacted as a result of Overby-Seawell Company's cybersecurity incident that it discovered on or about July 5, 2022 (i.e., the Data Incident, as defined in the Settlement Agreement) ("Settlement Class Members").

8. Excluded from the class are Fulton's and OSC's officers and directors, as well as (i) all Settlement Class Members who timely and validly request exclusion from the Settlement Class; (ii) the judges assigned to the Litigation and to evaluate the fairness, reasonableness, and adequacy of this settlement; and (iii) any other Person found by a court of competent jurisdiction to be guilty under criminal law of perpetrating, aiding or abetting the criminal activity occurrence of the Data Incident or who pleads *nolo contendere* to any such charge.

Individual Notice

9. Fulton will provide KCC and Class Counsel with a list of approximately 111,663 names and last-known addresses for Settlement Class Members (the "Class

List”).

10. A single postcard Summary Notice will be sent to all Settlement Class Members for whom a postal address is available.

11. Prior to mailing, the addresses will be checked against the National Change of Address (NCOA)¹ database maintained by the United States Postal Service (USPS); certified via the Coding Accuracy Support System (CASS);² and verified through Delivery Point Validation (DPV).³

12. Notices returned by USPS as undeliverable will be re-mailed to any address available through postal service forwarding order information. For any returned mailing that does not contain an expired forwarding order with a new address indicated, KCC will conduct further address searches using credit and other public source databases to attempt to locate new addresses and will re-mail these notices, if applicable.

¹ The NCOA database contains records of all permanent change of address submissions received by the United States Postal Service (“USPS”) for the last four years. The USPS makes this data available to mailing firms and lists submitted to it are automatically updated with any reported move based on a comparison with the person’s name and last known address.

² Coding Accuracy Support System is a certification system used by the USPS to ensure the quality of ZIP+4 coding systems.

³ Records that are ZIP+4 coded are then sent through Delivery Point Validation to verify the address and identify Commercial Mail Receiving Agencies. DPV verifies the accuracy of addresses and reports exactly what is wrong with incorrect addresses.

Publication Notice

13. The results of the individual notice effort will be continuously monitored and analyzed to confirm that the results fall within expectations. Should the results be less than expected, additional indirect notification methods will be added to ensure the notice program provides at least 70% of likely Class members with an opportunity to see a notice.

Response Mechanisms

14. KCC will establish and maintain a case-specific website to allow Settlement Class Members to obtain additional information and documents about the Settlement and file a Claim Form online. Settlement Class Members will also be able to view, download, and/or print the Class Action Complaint, Postcard Notice, Long-Form Notice, Claim Form, Settlement Agreement, and other relevant settlement and court documents. The website will be maintained from the Notice Date until sixty days after the Claims Deadline has passed.

15. KCC will establish a case-specific toll-free number to allow Settlement Class Members to call and learn more about the case in the form of frequently asked questions.

Claims Processing

16. KCC will review, process, and evaluate each Claim Form received,

including any required documentation submitted, for validity, timeliness, and completeness.

CONCLUSION

17. In KCC's experience, the Notice Plan proposed for this case is consistent with other settlement notice programs. The expected reach of the Notice Plan is also consistent with other effective court-approved settlement notice programs and is designed to meet due process requirements. The Federal Judicial Center's *Judges' Class Action Notice and Claims Process Checklist and Plain Language Guide* considers 70-95% reach among class members to be a "high percentage" and reasonable.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Executed on this 7th day of April 2023, at Lakewood, CA.
